TERMS AND CONDITIONS

PAYMENT TERMS
Net 30 days upon approval.

FREIGHT POLICY
All prices are F.O.B. Suffern, New York. Orders totaling $1,500 will be shipped freight free with the exception of all foam mattresses, foam/gel mattresses and gel overlays. Call for freight quotes.

FREIGHT CLAIMS
All shipments must be inspected at time of delivery. Claims with visible damage must be signed for at time of delivery in order for a claim to be filed with Carrier, **NO EXCEPTIONS**. Claims for shortages must be filed within 24-48 hours.

RETURN GOODS POLICY
Merchandise cannot be returned without prior authorization. It will be refused and returned to sender. Returns must be sent prepaid and subject to a 35% restocking fee unless an error in processing is made by Crown. All returns must have prior written authorization from Customer Service with a valid RMA#. Custom items are non-returnable.

WARRANTIES
All products are warranted against defects in workmanship and materials. The warranty does not include negligence or misuse of the product. It is at the discretion of Crown to repair or replace damaged goods. All warranty returns must have prior written authorization from Customer Service with a valid RMA#.

PROPOSITION 65
Although the materials used fall below the threshold in Prop 65, a Prop 65 warning is included in all shipments to California.

The company has the right to modify and improve any product without notification.
We reserve the right to change prices without notice.

MANUFACTURING • WAREHOUSE • SALES • SERVICE

For over two decades, Crown has been a leading manufacturer and provider of high-quality hospital, long term, acute care and homecare medical products.
Our manufacturing facility and showroom is located in Suffern, New York.

QUALITY

Crown Medical manufactures to medical & military standards using high-quality materials that meet or exceed standards for reliability, health, performance and flammability.

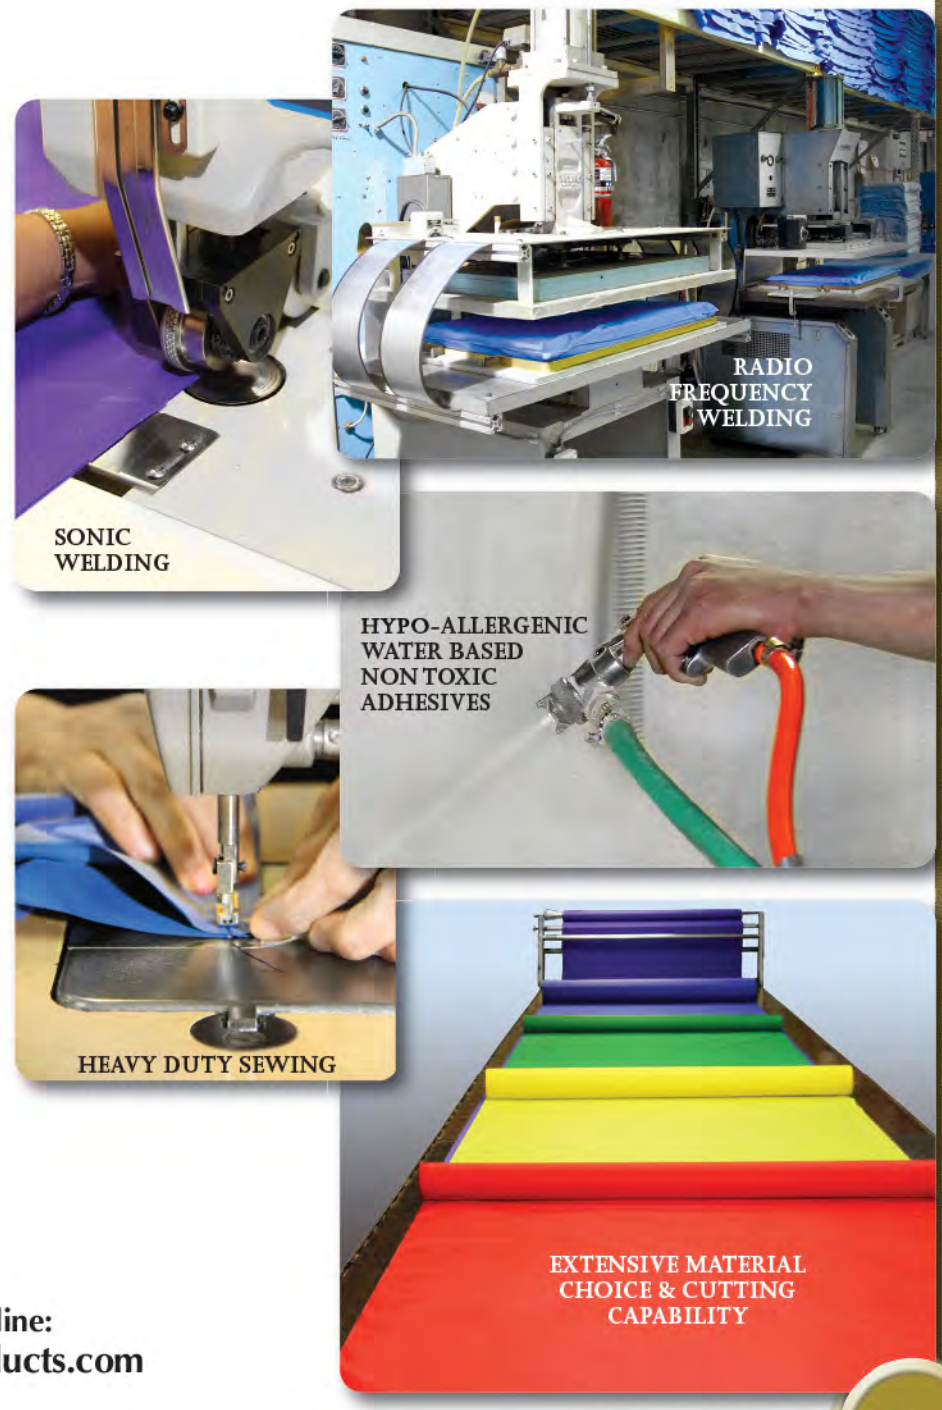

Crown can customize products for specific application, pediatric, geriatric or bariatric.

SALES, SERVICE & SUPPORT

Crown provides the industry's finest service and has most knowledgable sales, and technical support staff ready to help.

HUGE INVENTORY

A huge inventory means the products you need are in-stock and ready for quick shipment from our New York warehouse. Many hard-to-find and bariatric products.

ARC PLUS® CPAP PILLOW

The unique shape of this pillow promotes proper neck and spinal alignment, especially when using a CPAP or BI-PAP device. The pillow can be used to sleep comfortably on your side, back or stomach. The mask and hose can move freely with the patient due to the ARC cutout in the pillow. The pillow is filled with a hypo-allergenic, high-lofted, polyester fiber and covered in white poly/cotton. An additional cover is included.

MODEL	SIZE	COVER
CP-ARC	20" x 26"	Poly/Cotton

"BUTTERFLY" TYPE PILLOW

Specifically designed for those who sleep on their side or back. This pillow reduces strain on the neck associated from hyper-extension while sleeping. The pillow is filled with a hypo-allergenic,high-lofted, polyester fiber and covered with a white poly/cotton cover.

MODEL	SIZE	COVER
CP-BF	18" x 23"	Poly/Cotton

"ANTI-STRESS" PILLOW

This incredible "Anti-Stress" pillow will make you feel refreshed and rejuvenated in the morning. This unique design promotes support, by keeping the head and spine in proper alignment at all times. Proper amount of "give" in the hypo-allergenic, high lofted fiber filling ensures support without hindering circulation.

MODEL	SIZE	COVER
CP-AS	18" x 25"	Poly/Cotton

BODY PILLOW

Blue Chip's body pillow helps maintain proper spinal alignment, and support for body, arms and legs. Comfortable & soft, hypo-allergenic fill covered in soft white poly/cotton blend. Our unique process prevents the fill "migration" found in other body pillows that leave uncomfortable gaps and needs constant fluffing.

MODEL	DESCRIPTION	SIZE	COVER
BP-120	Body Pillow	15" x 120"	Poly/Cotton

"JACKSON" TYPE CERVICAL PILLOW

This plush filled hypo-allergenic, high-lofted polyester fiber filled pillow maintains proper neck posture and aligns the vertebrae restoring a stress-free, normal neck contour. The pillow is covered with a zippered white poly/cotton. Pillow is available with a convoluted foam core.

Convoluted Foam Core

MODEL	DESCRIPTION	SIZE	COVER
CP-JT	Jackson Type Cervical Pillow	17"w x 6"h	Poly/Cotton
CP-JTRC	Replacement Cover Jackson Type Pillow	17"w x 6"h	Poly/Cotton
CP-CC	Convoluted Cervical Pillow	17"w x 6"h	Poly/Cotton
CP-RC	Replacement Cover	17"w x 6"h	Poly/Cotton

"JACKSON" TYPE CERVICAL REPLACEMENT COVER

Hypo-allergenic zippered cover fits over existing pillow. The replacement cover is a soft white poly/cotton blend.

► BED WEDGE

Our versatile bed wedge can be used as a back support wedge or a leg elevator wedge. The bed wedge reduces neck and back strain while increasing circulation. Great for reading or watching television. It is constructed with a high density polyurethane foam core, and is covered with a poly/cotton cover. Can be manufactured with our ChemSafe® vinyl cover for use where respiratory conditions exist.

Shown with ChemSafe® Vinyl

CUSTOM SIZES AVAILABLE		

► ORTHO LEG ELEVATOR WEDGE

When legs are elevated, this wedge flattens the spine to help relax and ease back pain.Increased circulation and redistribute pressure on discs are an excellent therapy for low back pain. It is constructed using a high density polyurethane foam covered with a white poly/cotton.

MODEL	SIZE	ELEVATION
LW-100	20"D x 26"W	7.5"

► KNEE ELEVATOR WEDGE

This wedge reduces stress on the spine, by redistributing pressure off the legs and back. The inner core is a high density polyurethane foam and is covered in a white poly/cotton.

MODEL	SIZE
KW-100	17"L x 10"H x 8"W

► BODY ALIGNER WEDGE

Provides firm body support that prevents patients from rolling out of bed. It helps to maintain a patient's position while redistributing pressure in sensitive areas. Excellent aid for patients who lay on their sides. Cover available in a white poly/cotton, medical grade vinyl or grey foam without a cover.

CUSTOM SIZES AVAILABLE

WHEELCHAIR POSITIONING BELTS

Safety is a must for all patients sitting in a wheelchair. We offer three styles of belts that are easy to attach to any standard wheelchair frame.

Auto Push Button: This buckle style offers a spring loaded "pop-out" connector. The center release mechanism separates with minimum effort.

Side Release: This injection molded Delrin "side release" buckle provides excellent durability with light weight structure. Just squeeze the sides for quick release.

Hook and Closure: The remarkable sheer strength of hook and loop closure plus its "Clinch" features makes this seat belt one of our best. It is easy to use, lightweight and boasts a simple on and off quality.

***FLAMMABILITY**

All Mattresses Meet Federal Flammability Standard 16 CFR 1633, California Technical Bulletin #117 & #129, 603, Life Safety Code 101 and City of Boston BF 1X-11.

GEL-PRO MATTRESS OVERLAY & GEL-PRO MATTRESS

The Gel-Pro line of mattress overlays offers maximum protection to guard against the incidence of pressure sores. Our viscous gel migrates through sectioned bladders to redistribute pressure around bony prominences. The cover is a soft non-shear nylon material that helps to reduce heat and moisture build-up. Both materials are fluid and stain resistant, anti-microbial, and fire-retardant. Available in bariatric, full and queen sizes.

GEL PRO MATTRESS OVERLAY

The Gel-Pro line of replacement mattresses is ideal for the Nursing Home and Homecare Markets. The 3 section, 5.5 inch mattress utilizes a high density, high compression foam base designed to extend the life of the mattress and maximize its clinical benefit. The mattress is constructed using the same materials as the Gel Overlay but with heavy duty institutional use in mind. The zippered cover allows for sections to be removed for easy portability and storage. Materials are fluid and stain resistant, anti-microbial, and fire-retardant. Available in bariatric, full and queen sizes.

STRETCHER, EMERGENCY ROOM & OPERATING ROOM

All pads supports up to 350 lbs

All replacement pads are designed to meet the heavy-duty requirements necessary for institutional use. The foam core is high density polyurethane foam that meets California Technical Bulletin #117 for fire-retardancy. A selection of foam and materials are available to meet more stringent fire standards such as California Technical Bulletin #121 and Boston fire code. Your choice of square, round or cut corners are available. Thickness availability: 2", 3" or 4". Available in 1, 2 or 3 sections with either a zippered or sealed lock-stitch closure. Velcro straps, fabric hinges and GU cut-out are available.

The replacement pads are manufactured in a variety of cover materials: the conductive material is a UL® registered fabric approved by the **Underwriters Laboratories**. The non-conductive is a durable bonded vinyl leatherette. Waterfall flaps cover zippers for added protection against infiltration of fluids. Both materials are anti-microbial, non-allergenic and adhere to California Technical Bulletin #117. Meets Federal Flammability Standard 16 CFR 1633 when specified.

Gel-Flex™ is a flexible semi-solid gel, excellent for long surgical procedures. Gel-Flex™ is x-ray transluscent and provides superior pressure redistribution. Gel-Flex™ is 1/2 thick and also available as separate components.

COVER MATERIALS

MEDICAL GRADE VINYL
Fluid proof, anti-microbial and hypo-allergenic.

NON-CONDUCTIVE VINYL
Navy & black leatherette. Fluid-proof, anti-microbial & hypo-allergenic.

CONDUCTIVE UL®
For surgical applications, fluid-proof, anti-microbial & hypo-allergenic. Available in blue or black Vyvex-III™ multi-stretch & vinyl.

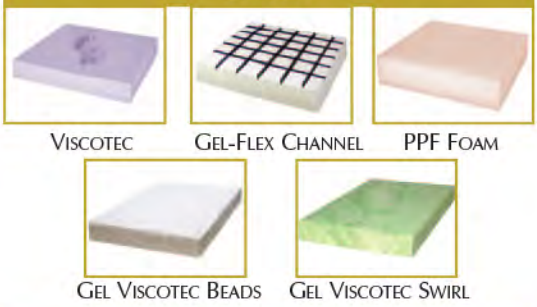

VYVEX-I™
Nylon PVC-backed fabric, fluid proof, low shear, low friction, anti-microbial, stain resistant & washable.

VYVEX-II™
Nylon Butyl-backed fabric, fluid proof, low shear, low friction, anti-microbial, stain resistant and washable

VYVEX-III™
Multi stretch urethane coated, fluid proof, low shear, low friction, anti-microbial, stain resistant and washable.

NON-SLIP BOTTOM
Durable non-slip pebbled bottom cover material can be added to help prevent accidental falls due to sliding or shifting during transfers.
